

36 INCH FRENCH DOOR REFRIGERATOR

BRFD2652SS

Contemporary European Design

Blomberg refrigerators harmonize refined design sensibilities with the demand for functional excellence. Thoughtful decisions include a streamlined counter-depth design for the clean sight lines you covet, reversible doors for ultimate flexibility, plus a luxurious stainless steel finish that resists fingerprints and makes cleaning effortless. Boldly beautiful Euro-style handles combine sophistication and strength to complement both your aesthetics and your active life. Inside, theatrical LED lighting brilliantly illuminates every corner while conserving energy. Prominent digital display puts complete control within easy reach.

In Harmony with Nature

Blomberg understands living well also means living intelligently and responsibly. It's a distinction that earned us the ENERGY STAR[®] 2017 Partner of the Year award. Featuring innovative technology that safeguards your food and ensures maximum freshness, our ENERGY STAR certified refrigerators also conserve energy, save money, and help protect the planet. The ultimate in eco-friendly engineering, Blomberg refrigerators are built with 99.9% lead-free materials, 100% free from ozone-depleting greenhouse gases, and manufactured with 85% recyclable components.

In Harmony with Your Life

Trio-Cycle Cooling

This ingenious French-door refrigerator is the epitome of form and function for those who enjoy entertaining at home. Independently zoned and controlled cooling systems maintain even air temperature and humidity in three separate compartments—freezer, refrigerator, and a flexible 2.7 cu. ft. Flexizone compartment where you can customize the temperature from -10°F to +50°F. No air transfer between compartments means food in the freezer section freezes faster, items in separate refrigerator sections are chilled to perfection, and odors don't circulate.

Blue Light Technology

Exclusive Blomberg Blue Light Technology represents a breakthrough in keeping fruits and vegetables fresh and juicy long after they're picked. Continuous blue light rays illuminate the crisper and allow the natural process of photosynthesis to continue, prolonging storage life and preserving natural flavors, colors, textures, and nutrients.

Flexizone

Offering unparalleled versatility, this unique 2.7 cu. ft. compartment can be set to a wide range of temperatures from -10°F to +50°F, so you can customize storage depending on your needs. Choose the lowest temperature to increase freezer space. Create a quick-chill zone for wine or desserts. Set the Flexizone at the perfect fresh-food temperature for keeping delicate produce, imported cheeses, or prepared party foods ready to serve ethylene gas, extending the life of fresh fruits and vegetables and keeping circulated air clean and fresh smelling.

Through-the-door Ice and Water Dispenser

Blomberg builds convenience into every appliance. Enjoy the great taste of chilled, filtered water or ice without even opening the refrigerator door.

36 INCH FRENCH DOOR REFRIGERATOR

BRFD2652SS

Fridge Features

Trio Cycle Cooling
Blue light technology
Flexizone
Digital display on the door
Filtered ice & water dispenser through the door
Finger print free stainless steel
Interior theatre lighting with LED lights

Freezer Features

Automatic ice machine
3 freezer drawers

Dimensions

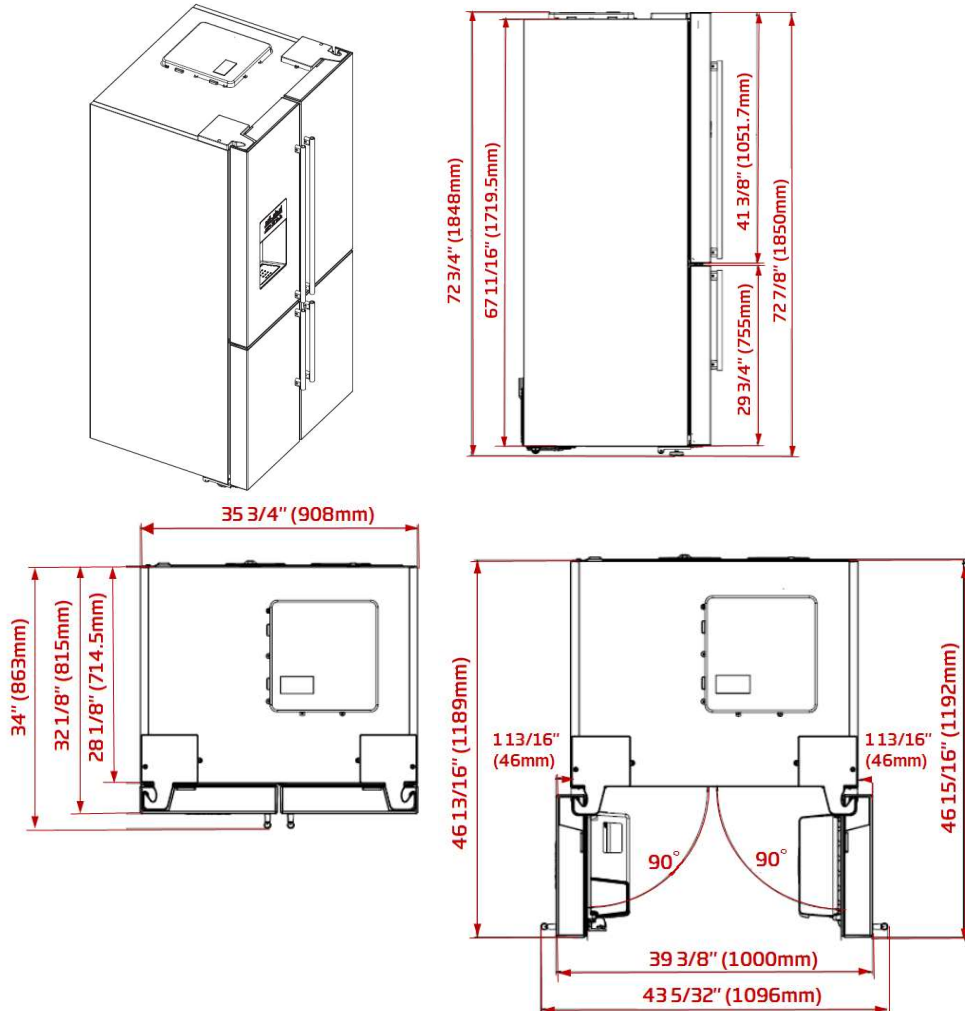

H x W X D: 72 7/8" x 35 3/4" x 32 1/8"
Depth is with doors / without handles.
